MICROPROCESSOR SYSTEMS PROJECT SUBMISSION FORM

PROJECT 1: GETTING STARTED

RealDigital

Revision: August 14, 2019

I am submitting my own work, and I accept that penalties will be assessed against me if I submit work that isn't mine.

_____   _____   _____
Print Name   Sign Name   Date

Point Scale
4: Exemplary
3: Complete
2: Incomplete
1: Minor effort
0: Not submitted

#	Deliverable	Wt	Pts	Date	Asst. Signature
	Requirements				
	1: Verify the demo project				
1	Program demo	2			
2	Verbal questions answered well	2			
	2: Negate the switch signals				
1	Program demo	1			
2	Verbal questions answered well	1			
	3: Illuminate the LEDs using pushbuttons				
1	Program demo	2			
2	Verbal questions answered well	2			
	4: Use compares and branches to light LEDs under different conditions				
1	Program demo	2			
2	Verbal questions answered well	2			
	5: Use compares on bit fields to control multiple LEDs				
1	Program demo	2			
2	Verbal questions answered well	2			
	Challenges				
	1: Use switches and buttons to control LEDs				
1	Program demo	2			
2	Verbal questions answered well	2			
	2: Use a pushbutton to latch a binary value				
1	Program demo	2			
2	Verbal questions answered well	2			
	3: Toggle and LED with a button press				
1	Program demo	2			
2	Verbal questions answered well	2			
	Extensions				
	Describe				
1	Program demo				
2	Verbal questions answered well
